

Project Engineer – Transportation Engineering

Multiple Locations

Are you an energetic, skilled project engineer ready to contribute your expertise to a variety of projects? Does working with a team of talented professionals to address our region's transportation challenges sound exciting to you? Consider joining the SCJ Alliance Team!

Who we are

SCJ Alliance is a 100% employee-owned company with the mission to serve our clients, communities, and each other with creativity, knowledge, insight, and perspective. We routinely and easily cross job description lines in order to be part of getting something accomplished, regardless of the size of the task. With great projects and a fun-loving team, our firm has been named as both one of the nation's fastest growing and best places to work in recent years. With seven offices across Washington state, and one in Colorado, we specialize in civil engineering, transportation planning & design, environmental & urban planning, landscape architecture & design, and public outreach. Our mantra "Anticipate. Envision. Create" captures our work environment and project approach.

What you'll be doing

- **Work that keeps our region moving.** Our transportation team specializes in corridor design, highway framework studies and IIRs, signalized and roundabout intersection design, downtown transportation revitalization projects, traffic & roadway/highway design, transit design, and stormwater design.
- **Growing the business.** We're looking for someone who can develop and cultivate relationships with current and potential clients to find and secure new projects.
- **Growing as a professional.** You'll get to expand your experience by doing a variety of work including managing design and plan production, overseeing and mentoring technical staff, participate in project proposal development, project interviews and presentations.
- **Learning from some of the best!** We're proud to have some of the top transportation professionals in the country right here at SCJ. From national program designers to statewide award winners to international roundabout experts, you'll learn from the best in the business.

What you bring

- A passion for serving others, communication, creativity, and a commitment to high-quality work.
- A PE license and a bachelor's degree in civil engineering or equivalent.
- 1 to 5 years of progressively responsible transportation engineering experience.
- AutoCAD and/or MicroStation 3D experience.
- Civil 3D and/or InRoads experience preferred.

What we bring

- [An unbeatable culture!](#) An autonomous and collaborative work environment, exceptional operational support, creative and supportive co-workers, and a compassionate leadership team. Plus other fun stuff including firmwide Zoom parties, [mugshots](#), gold-medal virtual baking classes, virtual fitness challenges, Zoom trivia...and a variety of other creative ways we have found to come together and hang out.
- [Quality projects.](#) We pursue work that improves communities, challenges us, and makes a difference.
- [Community involvement opportunities](#) and a charitable matching program.
- Paid time off and retirement benefits: 401(k) plan & employee stock ownership plan (ESOP).
- Health, disability, and other insurance plan options to fit your needs. Including HSA & FSA plans.
