

## Project Manager – Civil

### Multiple Locations

Are you an energetic, skilled project manager ready to work with a team of talented professionals and contribute your expertise to a variety of projects? Consider joining the SCJ Alliance Team!

### Who we are

SCJ Alliance is a 100% employee-owned company with the mission to serve our clients, communities, and each other with creativity, knowledge, insight, and perspective. We routinely and easily cross job description lines in order to be part of getting something accomplished, regardless of the size of the task. With great projects and a fun-loving team, our firm has been named as both one of the nation's fastest growing and best places to work in recent years. With seven offices across Washington state, and one in Colorado, we specialize in civil engineering, transportation planning & design, environmental & urban planning, landscape architecture & design, and public outreach. Our mantra "Anticipate. Envision. Create" captures our work environment and project approach.

### What you'll be doing

- **Project Management.** Our civil engineering team works throughout the Western United States on mixed-used commercial, industrial, multifamily, and tribal land development projects. Strong project management is key to our success. Managing designs, budgets and schedules as well as coordinating with permitting authorities, clients, architects, and other engineering disciplines is routine.
- **Growing the business.** SCJ has a strong portfolio of existing clients we've worked with for over a decade. We are looking for someone who can carry on our history of excellent client service with existing clients, as well as introduce new clients to SCJ.
- **Leading a team.** Your mentorship will help guide a group of engineers and designers into careers that make an impact well into the future.
- **Support.** SCJ's land development team has completed hundreds of successful projects in thirteen states. As you mentor our engineers and designers, you'll have support from some of the most experienced land development professionals in the business.

### What you bring

- A passion for serving others, communication, creativity, and a commitment to high-quality work.
- A PE license and a bachelor's degree in civil engineering or equivalent.
- 7 years or more years of progressively responsible civil engineering experience.
- Proficiency in land development design and permitting.

### What we bring

- [An unbeatable culture!](#) An autonomous and collaborative work environment, exceptional operational support, creative and supportive co-workers, and a compassionate leadership team. Plus other fun stuff including firmwide Zoom parties, [mugshots](#), gold-medal virtual baking classes, virtual fitness challenges, Zoom trivia...and a variety of other creative ways we have found to come together and hang out.
- [Quality projects.](#) We pursue work that improves communities, challenges us, and makes a difference.
- [Community involvement opportunities](#) and a charitable matching program.
- Retirement benefits: 401(k) plan & employee stock ownership plan (ESOP).
- Paid time off.
- Health, disability, and other insurance plan options to fit your needs. Including HSA & FSA plans.
