Engineer Scott Rivas joins SCJ Alliance as Senior Project Manager

SPOKANE, WASH., August 12, 2021 – Civil engineer Scott Rivas has joined SCJ Alliance as a Senior Project Manager. Scott has worked in the industry for over 25 years, most of it in the greater Spokane area.

“Whether it is a school, commercial building, park, or civic center, I enjoy designing safe places for people to live, learn, work, and play,” Scott says. Scott earned his BS in Engineering from Walla Walla University and his MBA from Eastern Washington University.

Scott works with public, private, and tribal clients to anticipate emerging needs, envision projects to enhance livability and economic opportunities for communities, and create designs that bring those visions to life.

His portfolio includes work on the Iron Bridge Corporate Campus, Spokane Convention Center Completion Project, Mead School District, and Fairchild Air Force Base. Being an avid runner, one of Scott’s favorite projects was the Dan O’Brien Track & Field Complex at the University of Idaho. He’s currently working on a new building at 49 Degrees North, a 7-Eleven in Spokane Valley, and Dollar General stores across Washington.

In addition to the Spokane location, SCJ Alliance has 10 other offices including in Wenatchee, WA and Butte, MT. A 100% employee-owned firm, SCJ has over 130 employees and specializes in civil engineering, transportation planning and design, environmental and urban planning, landscape architecture, and public outreach. SCJ Alliance has earned many awards for project work and being a great place to work.
